Our immersive solutions

Why Polidomes?

We are the only company in our field with the capability to produce 99% of our products in-house, thanks to our skilled employees and advanced production equipment.

About Polidomes

Who we are

Polidomes is a leading designer and manufacturer of geodesic dome tent structures.

We are full solution providers for all event related services

and world's largest supplier of additional equipment for geodesic dome tents.

World's number one supplier of advanced geodome tent solutions (6m to 50m), as well as technological integrator of 360° immersive - experience hardware solutions for domes.

We specialize in fast, accurate production, delivery and assembly

of fully equipped, made-to-order, geodome structures both for sale and rent worldwide.

The Travel Machine

Travel Machine. Big idea

The Travel Machine is comprised of four spherical domes that attract visitors with their appearance, uniqueness, modernity, and limitless possibilities.

It is an exceptional travel destination that provides an immersive experience for all five senses. The "Five Elements" celebration highlights Earth, Air, Fire, Water and Ether / Spirit / Akasha which are symbolic of the physical, spiritual, and emotional characteristics that exist within nature and ourselves, will transport the audience to a other dimension.

Great location needed!

The Travel Machine

Travel Machine. Visualization

The Travel Machine

Description of our domes

Technical drawing, functions, design.

	description	size
1	Entrance, box office	P 50
2	Cafe / bar, meeting room	P 150
3	Immersive projection dome	P 500
4	Immersive interactive dome „Earth“	P 50
5	Toilet container	

P 50 Entrance

The Travel Machine

This is where our journey begins.

The P50 dome houses the entrance to the Travel Machine. Here, guests can purchase tickets or have their online tickets checked. Coats and outerwear can also be left here, allowing for unrestricted immersion in the Travel Machine's world.

The Travel Machine

2

P 150 Satellite

The central hub of the Travel Machine can be found in this dome after the entrance.

Guests can decide what to do next in this area. There is a waiting area for immersive shows preceded by an engaging introduction, a bar and a relaxation area where guests can sit and enjoy a coffee

or drink after the show and absorb the energy that emanates from the Travel Machine. The P150 dome also serves as a passageway to the next immersive dome - P50 and to the carefully hidden

restrooms. The interior of the satellite dome is complemented by projections found everywhere: on walls, furniture, and the floor.

The Travel Machine

3

P 500 Projection dome

P 500 is the
highlight
of the program

This is where the captivating "5 senses" journey begins, which includes air, water, fire, earth and soul.

The 500m² dome with projections on the sphere from the floor up and a LED cylinder in the center is an unrivaled and unprecedented set of tools for creating a completely immersive world. The mirrored floor further enhances the effect.

The immersive experience is intensified by the all-encompassing image and the mirrored coating, resulting in a more intense sense of immersion. Guests can enjoy the whole experience while seated on comfortable poufs.

The Travel Machine

4

P 50 Interactive dome

For those who crave more after experiencing the FullDome projection in P 500, Travel Machine offers a visit to the mysterious 50 m² dome dedicated to showcasing one of the senses.

This is a continuation of the immersive journey, allowing for even deeper immersion.

The interactive exhibition, which changes regularly, focuses on water, air, earth, fire or soul providing a complement to the Travel Machine's journey.

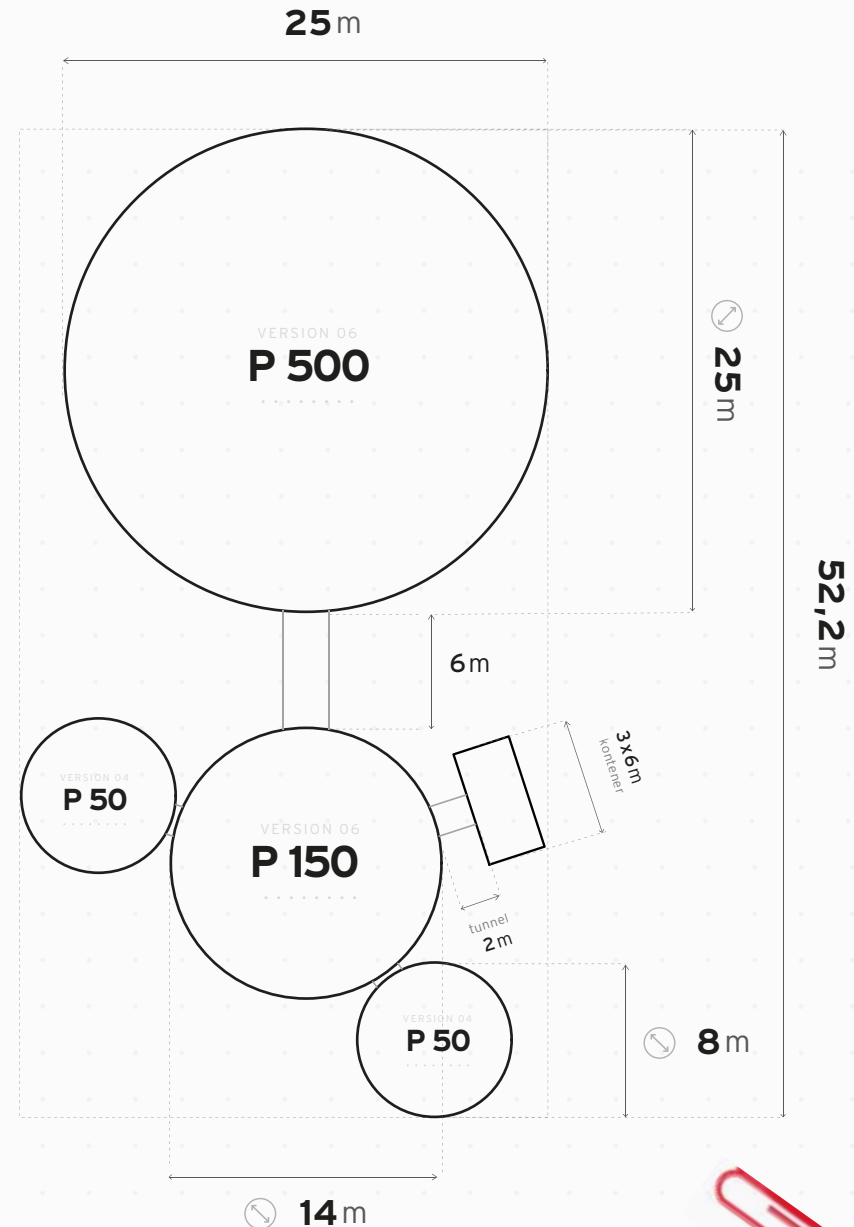

Layout of installation components and measurement of square footage of the Travel Machine

Implementation

! LOCATION REQUIREMENTS

- ✓ Equipped with essential utilities such as water and electricity
- ✓ Easily accessible by car or public transportation
- ✓ Availability of or possibility to provide parking spaces
- ✓ Proximity to restaurants and other popular tourist or local destinations
- ✓ Ground about 2000m²

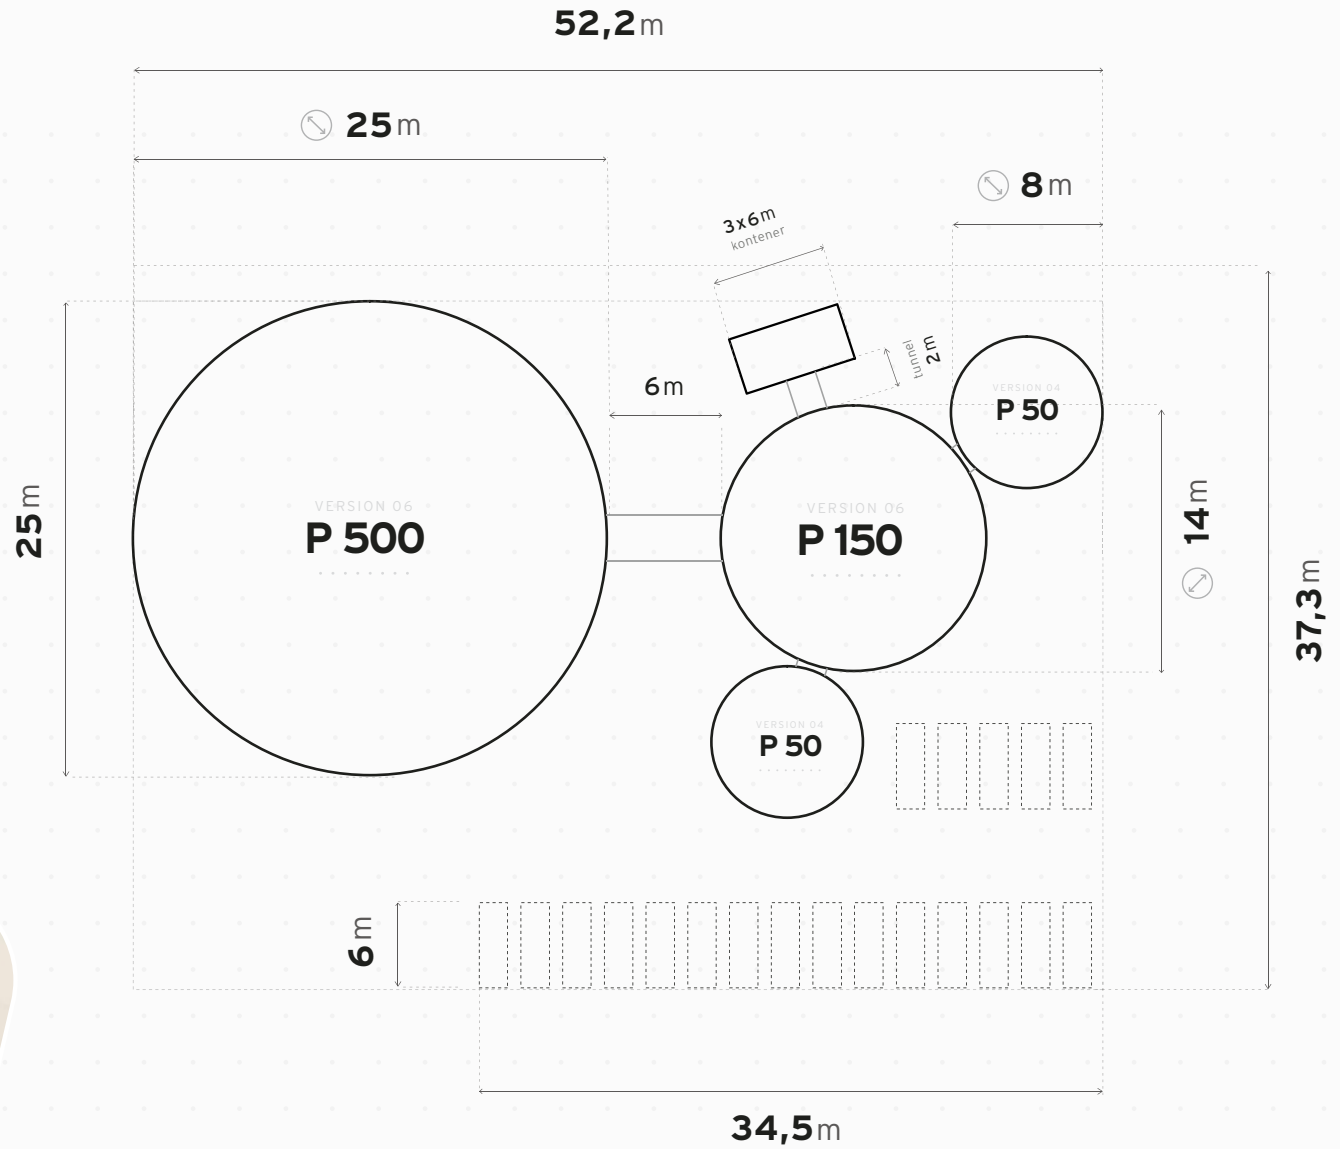

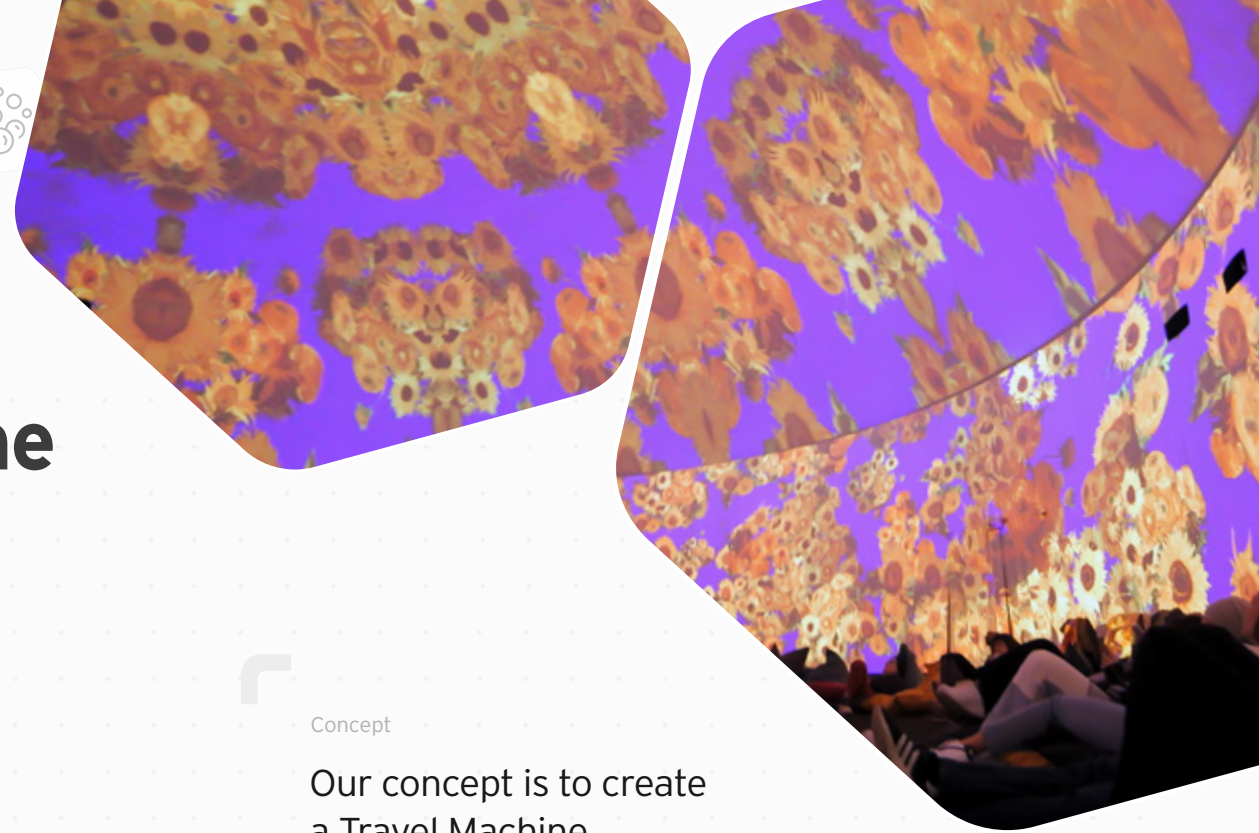

Layout of installation components and measurement of square footage of the Travel Machine

Implementation

To implement this amazing concept, we need a suitable location for our project.

Travel machine

Travel Machine for the Cities

Project title

The Travel Machine
- A Dream Destination

Concept

Our concept is to create
a Travel Machine

A place where everyone's dreams come true. The Travel Machine is not just a place where you can see, but also feel, touch, learn and experience unforgettable and immersive moments. It is an extraordinary travel destination that will leave a lasting impression on anyone who visits.

Cooperations with the cities

We are looking for a location that will be suitable for our idea. We hope that your place will help us embark on a wonderful adventure that is "The Travel Machine" and bring joy and benefits to everyone involved.

Project title

Tool for promoting your city
as creative and innovative place

Travel machine

Travel Machine for a Business

Benefits / Conclusions

Benefits

Our cooperation will be highly beneficial to your city. We will do everything in our power to promote your city and attract tourists from all over the world. The Travel Machine is not just a leisure destination; it also has an educational aspect that is essential to us.

Children and young people will have the opportunity to learn interesting things, gain new experiences, and expand their knowledge about the world around us. We are also happy to dedicate part of our time in our dome to talk about your city, a particular location, or the valuable history of a place.

Conclusion

The Travel Machine is a once - in - a - lifetime opportunity for people to experience an unforgettable journey of self-discovery, immersed in nature and the elements. With our expertise and your cooperation, we can make this dream a reality and make your city an even more attractive travel destination.

Brilliant idea

Why this is such a brilliant idea?

1

Social aspect

The Travel Machine serves as a platform to present products and services in an interactive and spatial manner. It has the potential to develop cultural tourism, bringing people together and fostering social connections.

2

Economic aspect

The Travel Machine can contribute to the economic growth of the surrounding area by increasing tourism, creating job opportunities, and promoting local businesses / your business.

3

Educational aspect

The Travel Machine serves as an educational tool by providing visitors with learning opportunities. Through the immersive environments and cutting-edge technologies, visitors can dive into various cultural and artistic expressions in an engaging and interactive way.

4

Ecological aspect

We place a high priority on being environmentally conscious. We achieve this by using sustainable materials and implementing eco-friendly practices throughout our operations. By doing so, we significantly reduce our carbon footprint, allowing people to enjoy the experience of travel without the guilt of harming the environment.

3

Creative aspect

The Travel Machine is a revolutionary force in the creative industry, offering a wide range of values in arts, culture, economics, education, and social aspects. Its unique spherical dome complex creates a spectacular, interactive, and innovative show, pushing the boundaries of creativity and imagination.
